

Massimo Mariani

Engineer and Architect

Councillor of the C.N.I. - National Council of Engineers - with responsibility for Culture, Consolidation and Restoration of Buildings, Geotechnics, Hydrogeological Risks and Scientific Divulgation.

Already member of the Board of Directors of the Advanced School of Training for Professionals, he is member of the Council of C.N.I.'s Center for Studies.

He had been a lecturer in "Geotechnics and Applied Geology in Engineering Works" at the University of Perugia for the II level Master about the Recovery of disrupted buildings.

He is a member of the Technical-Scientific Committee of the Structure of the Extraordinary Commissioner for the Earthquake of Central Italy and Former President of the E.C.C.E. - European Council of Civil Engineers - European Civil Engineers.

He is the author of 5 specialistic volumes-treatises, with over 17000 copies distributed and 37 articles in national and international journals, as well he is curator and co-author of 4 important publications in his own doctrinal field.

Recognized among the leading experts in the field of Restoration and Consolidation of buildings in Italy and abroad, his monographic works in the sector are:

- Consolidamento delle strutture lignee con l'acciaio, Roma, DEI - Tipografia del Genio Civile, 2004;

- Trattato sul consolidamento e restauro degli edifici in muratura -Tomo I: Interventi sui terreni e sulle fondazioni, Tomo II: Interventi sulle strutture in elevazione, Roma, Dei, Tipografia del Genio Civile, 2006;

- Trattato sul consolidamento e restauro degli edifici in muratura, Roma, Dei - Tipografia del Genio Civile, 2012 (nuova edizione);

- Particolari costruttivi nel Consolidamento e Restauro, Dei - Tipografia del Genio Civile, 2014.

He is the curator of the book "Sisma Emilia 2012 - Dall'evento alla gestione tecnica dell'emergenza", Bologna, PENDRAGON, 2016
