

Gerda Schennach holds a graduation as MSc in Geodesy from the Institute of Technology in Vienna and a Diploma from a Commercial college in Innsbruck.

She has been affiliated to BEV, the Austrian Federal Office of Metrology and Surveying, since 1981 acting as Director of regional cadastral offices for 15 years and since 1998 as a Senior Advisor for international strategy and Geographic Information in the headquarters of BEV, being involved into several global, European and EU initiatives as an active participant.

She is Permanent Correspondent of BEV in several European institutions (EuroGeographics, Eurostat e.a.) and Member of the Austrian Geodetic Commission (ÖGK), a subordinated body of the Federal Ministry for Digital and Economic Affairs. She has been member of the Working Group for gender issues in the Federal Ministry for Digital and Economic Affairs for years, for the moment as a deputy Chair of the Working Group.

She has also been active as a member of the Board of international professional associations, such as Secretary-General of CLGE from 1998-2007, re-elected member of the Executive Committee of EUROGI, founding member and at present Vice-President of the Austrian Umbrella Organisation for GI (AGEO) and Member of the Executive Board of the Austrian Society for Surveying and Geoinformation (OVG- FIG member assoc.) since 1998, re-elected for several times.

Her long-term engagement in FIG was in Commission 3 and Commission 7, to which she has been the Chair for the term 2015-2018 and the elected ACCO representative in the FIG Council in 2017-2018.
